

PSO Regrooving Tools

PS15 STANDARD®

It presents 4 heat settings and a zero position.
370W Transformer .
Has the rugged reliability and same specifications
of the more sophisticated PS15 Truckstar Plus.

PS15 PLUS®

Mechanical version of the PS15 Truckstar Plus.
Same 500W transformer for a smooth regrooving.
5 heat settings and a zero position.

PS15 TRUCKSTAR PLUS®

Integrated keys to the front and a more powerfull
500W transformer for a better blade slipping in the
rubber.
Most sophisticated, heating regulation at close to 1%.
Economic tool, stand-by mode when not in use.

PS15 OTR®

Our more powerfull regroover :
1000W instead of 500W for the PS15 Truckstar Plus.
5 heating positions.
Tool especially developed for intensive regrooving
with R5, C5 and C6 blades.

COMMON SPECIFICATIONS :

- > Handle is very ergonomic and comfortable.
- > Every size of blades can be fitted on the cutting head in one operation, clamps are spring loaded.
- > Each regroover comes with a free box of 20 blades and a blade clamping spanner, ready for use.
- > The hood protects your investment from dust and mud.
- > For a better security power in cables is only 1,5 V.
- > Each part is available as spare part.
